### Education

**Full Stack JavaScript Web Developer, Go My Code**  
11/2021 – 04/2022 | Tunis, Tunisia

**Front End Development, Udacity**  
08/2019 – 12/2019 | online

### Professional Experience

**Freelance Full stack developer, TNMART**  
08/2022 – 04/2023 | Guangzhou, China

As a Freelance Full Stack Developer, I crafted TNMart, an e-commerce hub with seamless buyer-seller interactions. Simultaneously, I designed TNMart Logistics for efficient supply chain management. Utilizing Next.js and Node.js, I ensured a smooth user experience, handling everything from e-commerce functionality to performance optimization.

**Freelance Front-end React developer, Zeta engineering**

05/2022 – 07/2022 | Ben Arous, Tunisia

I played a pivotal role in creating visually stunning and highly responsive user interfaces for various web applications. My focus on utilizing React.js allowed me to deliver seamless and engaging user experiences.

**Final validation project, go my code**

03/2022 – 04/2022 | tunis, Tunisia

Creation of a "BIG-cinema" website using MongoDB and Express for the back-end, React and Redux for the front-end, JWT for authentication, and Video Streaming Server with NodeJS
